Dear Mr. Valley:

Council for the Municipality of Machin passed a resolution at their regularly scheduled Council meeting August 24, 2009 to support, in principle, the TecVana Project. A copy of the resolution is enclosed for your information.

We agree that the concept of TecVana has great potential for economic development opportunities in our area and strongly lend our support to your efforts in being considered as a pilot community in this project.

Should you have any questions, please contact me.

Yours truly,
